

TSHEPHO LANGA
A REMARKABLE ACADEMIC WHO PROBES OUR WAY OF THINKING DIFFERENTLY

Tshepho holds a Master of Business Management and Administration (USB), Advanced Diploma in Economic Policy (UWC), Bachelor of Commerce (UKZN), Programme in Public Procurement and Supply (UNISA) and Certificate in Banking (Bank SETA). His industry background is in general management positions in the banking and retail sectors. Although as with all Da Vinci academics, Tshepho still ensures his applied industry experience is practiced in the form of his own consulting work as a business owner and motivational speaker, his primary passion is now as an Academic, where he holds the position of a full-time faculty academic at The Da Vinci Institute. Tshepho made this shift because he is passionate about adding tangible long-term value to the curious and critical minds of the Da Vinci community.

All Davincians are encouraged to **be REMARKABLE** in their unique leadership contributions to the societies, which they co-create and contribute to. The REMARKABLE acronym encourages each Davincian to embrace their selection of

THE DA VINCI INSTITUTE

attributes that they believe characterise their remarkability. Tshepho has selected the following attributes for himself:

Rigorous, **E**nergetic, **M**ulti-skilled, **A**dmirable, **R**elatable, **K**ind, **A**pt, **B**old, **L**oving, **E**nable

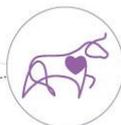

Tshepho is an enigmatic man who sees his life as a number of parts that work together interchangeably and in an interconnected way to make up the holistic man he is – a true systems thinker. To this end, he is a lay preacher, he owns two businesses of his own, namely, a car wash and a restaurant, and he has an unbridled passion for cooking.

When asked his views on reality shifting experiences in his life, Tshepho explains that he has had many, he believes that all meaningful experiences in some way shift our perspective on life. However, it was actually an experience that many perceive as deeply negative, that of divorce, that impacted his reality the most because out of this experience he learnt about forgiveness, empathy and the appreciation of love and importance of family. It is this deep and meaningful lens through which he analyses each situation that contributes to Tshepho's remarkability as an academic and an impactful lecturer.

When in motivational sessions Tshepho reminds people that the "...probability of possibility is 100%." He explains that this means that anything is possible, if you want it to be possible.

Tshepho does what he does because he wants to add value to people's lives by teaching, motivating and widening people's views and perspectives on the possibility of what life has to offer. Tshepho posits that we should always remember to love our life experiences, education journeys, business ventures and reaching out to people because that is the fabric that weaves our lives together.

Tshepho shares deep and meaningful engagements with our students and is an academic pillar of the Da Vinci Community.
