1. Introduction

Professional writing forms an integral part of the learning process and should present information that demonstrates that the learner has a clear understanding of a specific learning area or subject.

The purpose of this guide is to assist you, the learner, in the professional writing process. The guide focuses on four main elements of professional writing:

**Diagram 1: Elements of the professional writing process**

These elements are discussed in the sections that follow. We also share information on general guidelines that should assist you in your professional writing process.

The purpose of this guide is to assist you in achieving the following learning outcomes:

- Formulate a coherent and logical agreement;
- Structure an academic document;
- Write a report.
2. Elements of the professional writing process

2.1 Element 1: The writing process

In this section we focus on the first element of the professional writing process, namely the writing process itself.

When planning a response to an assignment or project you need to follow a well-planned process.

Below we discuss three (3) steps that will guide the writing process.

**Step 1: Understanding the purpose of the assignment through action verbs**

You need to ensure that you understand the essence of the assignment and what is expected of you in the assignment. This means you need to read the assignment carefully to identify what is expected of you. Each assignment or activity will have an **action verb**. An action verb explains what you are expected to do in the respective assignment/activity. Below are some **examples** of action verbs:

- Explain;
- Describe;
- Evaluate;
- Analyse; and
- Make recommendations.

A list of action verbs and explanations are attached as Annexure A.

**Step 2: Planning and developing an outline for the assignment**

You need to plan and develop an outline for your assignment. It provides a structure in which you will develop your ideas and it allows you to determine a logical sequence of thoughts, ideas, arguments and information. It also serves as a reminder for you to cover all the points.

Below are some **suggestions** for developing an outline:

- Use a **mind map** format:
  - Draw a mind map (brainstorm your ideas first);
  - Think about what you are going to write about; and
Arrange your thoughts on the mind map into a logical sequence.

- Use **index cards**:
  - Write key points onto index cards; and
  - Then lay them on the floor in different sequences until the ideas and thoughts flow logically.

**Step 3: Writing the assignment**

In this step, we focus on the writing process itself. You should now understand what is expected of you in a specific assignment. The writing process consists of four (4) **stages**. These stages are illustrated in Diagram 2.

**Diagram 2:  Stages of the writing process**

These stages are not linear, as they do not have clear starting and ending times. Furthermore, you can be in more than one stage at the same time. The stages are discussed in detail in below.

**Stage 1: Prewriting**

Prewriting is everything you do before you begin drafting the assignment. This can include:

- Looking over an assignment handout (PMA);
- Choosing a topic;
- Assessing the audience; and
- Researching, locating and evaluating source material.

**Prewriting strategies** you can use to help you choose and develop a topic include:

- Brainstorm a list of ideas on a topic;
- Draw a mind map;
- Read and take notes on a topic;
- Ask questions;
- Discuss ideas about a topic; and
- Draw an outline (diagram) of your assignment.
As you consider your topic, you need to make sure you can narrow it enough to fit the required length of your assignment, e.g. 3-5 pages. To do this, you will need to consider your purpose for writing the assignment.

There are several different purposes to consider, namely to:

- Express
- Analyse
- Inform
- Persuade
- Explore
- Entertain

You may also need to think about your audience, e.g. who they are and how much they know about the topic. Once you have considered your topic, developed your ideas on the topic, thought about the purpose and audience, you are ready to draft the paper.

**Stage 2: Drafting**

Drafting is the stage where you begin to put the assignment in a structure or reading form. You can select between different writing techniques. Five (5) writing techniques follow in Table 1.

**Table 1: Writing techniques**

<table>
<thead>
<tr>
<th>Technique</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Aim of research or assignment</strong></td>
<td>At the end of your introduction, write a one-sentence statement that forecasts what your assignment will contain. Tell the readers what you are going to share with them.</td>
</tr>
<tr>
<td><strong>Topic sentence</strong></td>
<td>Each paragraph should begin with a topic sentence, which states the main idea of the paragraph.</td>
</tr>
<tr>
<td><strong>Sufficient support</strong></td>
<td>You need to support your topic sentence by developing the paragraph with sufficient support. Different forms of support range from statistics, research information, case studies, definitions and graphs. <strong>Note:</strong> Remember you can use tables, figures, graphs and charts to condense data and present it clearly. These do <strong>not</strong> count as part of your word count.</td>
</tr>
<tr>
<td><strong>Coherence</strong></td>
<td>If an assignment is coherent, all the paragraphs relate to the one before it and all the sentences relate to the one before it. <strong>Transitional words and phrases</strong> help to create bridges</td>
</tr>
</tbody>
</table>
Professional Writing

When planning and drafting your response you should consider the eight features of professional writing. A list of these features is attached as Annexure B.

Writing is a process and you might need to attempt and practise the different techniques a couple of times before you feel comfortable with the format, structure and content of your assignment. Revising is the third stage in the process and can assist you in this process.

Stage 3: Revising

Revising implies reading the assignment or response critically with the aim to identify confusing, inconsistent, incorrect or wordy arguments and statements. During the revision process you might identify sections in the assignment where you need to:

- Add information;
- Delete information; and/or
- Rearrange information.

Below is a checklist you can use to assist you in revising your assignment.

<table>
<thead>
<tr>
<th>#</th>
<th>Item</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Does the essay fit the topic?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.</td>
<td>Does the introduction have a research aim or goal statement?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td>Does each paragraph have a topic sentence?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.</td>
<td>Are there explanatory words between sentences and paragraphs?</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
5. Do you have sufficient theoretical support in each paragraph?
6. Are the paragraphs arranged in a logical flow?

**Note:**
Revision is much more than proof-reading. Good revision and editing can transform a mediocre first draft into an excellent final assignment or response.

### Stage 4: Editing

In the editing stage you need to check your spelling, grammar and mechanics of your assignment. A well-written, error-free and well-structured assignment is always a pleasure to assess and moderate.

The following is an editing **checklist** that you can use to assist you in the editing process:

<table>
<thead>
<tr>
<th>#</th>
<th>Item</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Does the text read smoothly?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.</td>
<td>Is each sentence complete?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td>Is each paragraph complete?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.</td>
<td>Is each section complete?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5.</td>
<td>Are ideas, arguments and relationships thoroughly developed?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6.</td>
<td>Have you checked for unnecessary use of jargon and repeated words and phrases.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7.</td>
<td>Are paragraphs in the correct order?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8.</td>
<td>Is there a logical progression?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9.</td>
<td>Did I use the following correctly and consistently?</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Punctuation</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Capitals</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Tenses</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Spelling</td>
<td></td>
<td></td>
</tr>
<tr>
<td>#</td>
<td>Item</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>----</td>
<td>----------------------------------------------------------------------</td>
<td>-----</td>
<td>----</td>
</tr>
<tr>
<td>10</td>
<td>Have I checked that tables and diagrams are numbered correctly?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>11</td>
<td>Have I referred to all sources used in the text?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>12</td>
<td>I have checked the following formatting aspects:</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Headings and sub-headings</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Bullet points or lists</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• White space</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Underlining</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Indenting</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2.2 Element 2: The research process

In the previous section, we have discussed aspects related to the writing process and agreed on the following steps:

- Understanding the action verb;
- Planning and developing an outline for your assignment; and
- Prewriting of the assignment or response.

In the prewriting stage of the writing process, you should start working through relevant source material. In this section we discuss the second element of the writing process, namely the research process.

The discussion will focus on the next three (3) major steps of the research process:

- Locating source material;
- Evaluating source material; and
- Processing source material.

Guidelines for locating, evaluating and processing of source material

To start any research, you might want to have a research question or a hypothesis. This will narrow your focus and allow you to locate materials that would answer, confirm or deny the hypothesis.
There are two (2) different types of sources that will help answer your questions, namely **primary** and **secondary** sources.

**Primary source:** Is a first-hand account of the information you are seeking, e.g. a newspaper article written at the time, government documents, an interview, eyewitness accounts.

**Secondary source:** Is a secondary account of the information you are seeking, e.g. books or articles written by someone who is analysing any primary sources and secondary sources. You can also use the library and the Internet.

- Start with the recommended reading list, but do not limit yourself to this list, as further research usually results in better marks.
- Skim/read books to see if they will be relevant, noting down relevant page and chapter numbers. You can also use post-its in this process.
- Take down brief and concise information in your words.
- Do not copy paragraphs word for word unless you are going to use them as quotations.
- Write down all the source information for referencing purposes.

Constantly check on your outline and the topic and make sure you are on track.

### 2.3 Element 3: Acknowledging sources

We have now looked at different sources you can use to inform your assignment.

In this section, we discuss the importance of acknowledging sources in professional writing and share examples of text referencing techniques and the format of a bibliography or list of references. This discussion is based on the **Harvard referencing method**.
Guidelines:

- **Plagiarism** means using the work of other authors (or students) without acknowledgement. This form of cheating is severely penalised by assessors. Plagiarism does not only refer to direct quotes, but also to taking someone else’s ideas without acknowledgement, even if you put it in your words.

- Refer to examples on the **use of quotations** in text.
  - Quotations should be put in inverted commas.
  - If the quotation is short, include it in the main paragraph, otherwise indent and set it out as a separate paragraph.
  - Use dots (...) if you have not used the whole quotation, this indicates that you have skipped a bit.

Below are examples of **quotations and text referencing methods**

**Acknowledging a direct quote:**

... quotation marks must be “set out within texts” (Murphy, 2009:139).

**Acknowledging an idea expressed in one’s own words:**

Output also includes the psychological contract recognised expectations (Douwes-Dekker 2011:333)

Below are guidelines to draw up a **list of references**.

- List all the references you used at the end of your assignment. This needs to be done alphabetically.
- Books or other material that you have utilised must be listed in the **reference list** and each source should contain the following elements:

**Text referencing a book:**

Author’s surname, Initials. Date. The title of the book. Place of Publication: Publisher.

## Elements for referencing a book

<table>
<thead>
<tr>
<th>Element</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Authors’ surnames and initial with a full stop.</td>
<td>Shearman, D. &amp; Sauer, G.</td>
</tr>
<tr>
<td>Year of publication in brackets followed by full stop.</td>
<td>2009.</td>
</tr>
<tr>
<td>Title of book in minimal capitalisation and italics followed by a full stop.</td>
<td><em>Green or gone.</em></td>
</tr>
<tr>
<td>Place (City) followed by a colon.</td>
<td>Cambridge:</td>
</tr>
<tr>
<td>Publisher.</td>
<td>Wakefield Press.</td>
</tr>
</tbody>
</table>

### Text referencing a journal:

Author's surname, Initials. Date. Title of article in minimal capitalisation followed by full stop. Title of *journal* in maximal capitalisation and italics. Comma after title of the journal, volume (issue number): page numbers with a full stop at the end.

## Elements for referencing a journal

<table>
<thead>
<tr>
<th>Element</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Author's surname and initials with a full stop.</td>
<td>Stove, R.J.</td>
</tr>
<tr>
<td>Year of publication no brackets followed by full stop.</td>
<td>2008.</td>
</tr>
<tr>
<td>Title of article in minimal capitalisation followed by full stop.</td>
<td>Xenophobia: the great local content myth.</td>
</tr>
<tr>
<td>Title of <em>journal</em> in maximal capitalisation and italics. Comma after title of the journal.</td>
<td><em>Institute of Public Affairs Review,</em></td>
</tr>
<tr>
<td>Volume and issue number in lower case with a full stop at the end.</td>
<td>51(1):14-16.</td>
</tr>
</tbody>
</table>
**Elements for referencing a website/e-source**

<table>
<thead>
<tr>
<th>Description</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Author’s surname and initials with a full stop.</td>
<td>Sanders, P.</td>
</tr>
<tr>
<td>Year of publication no brackets followed by full stop.</td>
<td>2012.</td>
</tr>
<tr>
<td>Title of article in minimal capitalisation followed by full stop.</td>
<td>Effective communication – an essential element.</td>
</tr>
<tr>
<td>Website address followed by full stop. Date the website was accessed</td>
<td>(<a href="http://www.writing.utoronto.ca">www.writing.utoronto.ca</a>. Accessed on 23 February 2012).</td>
</tr>
<tr>
<td>followed by full stop. In brackets.</td>
<td></td>
</tr>
</tbody>
</table>

**2.4 Element 4: Structuring the Response**

When you reach this stage of the professional writing process, you are in the final stage of the process. Now you need to structure your assignment based on the outcomes of the preceding three stages. Remember, writing an effective assignment requires a logical, systematic approach supported by sufficient evidence and leading to a conclusion.

**Diagram 3: The three elements of an effective response**

- **Introduction**
- **Body**
  - Headings and sub-headings
- **Conclusion**
Elements of a structured response

Introduction
To write a good introduction, you need to reflect on the purpose of the assignment or response. Your first purpose is to catch the attention of your reader. This implies you need to include some kind of motivating factor.

Beneath are six techniques that you can consider using to capture the attention of your reader(s):
  - Ask a provocative or critical question.
  - State an unusual fact.
  - Give an illustration, example or anecdote.
  - Present a provocative quote.
  - Refer to a historic event.
  - Point to common relationships, beliefs, interests or opinions.

In the next section, you need to tell the reader about what they will be reading. You will need to present them with some background information.

The last part of the introduction is to present them with the research aim or goal statement.

Body
The body contains the arguments and information in support of your topic. It takes the form of inter-linked paragraphs. Each paragraph should deal with one specific concept or idea and the headings and sub-headings should reflect these concepts or ideas.

You will use the information and notes you have researched in a structured and logical manner.

Conclusion
When concluding you need to restate your research aim or goal statement and leave the reader with a memorable impression.
3. **General Guidelines**

In this section we share general guidelines that should assist you in planning and writing excellent professional work.

### 3.1 Assignment Submission Requirements

The requirements for submission of an assignment are summarised in Diagram 4.

**Diagram 4: Requirements for submission of assignments**

- Prepare a professional response
- Type in Verdana, Arial or Calibri font, size 11 pt
- Text justified and line spacing - 1.5
- Spacing between paragraphs - # before 6 pt; # after 12 pt
- Acknowledge sources and reference
- Insert page numbers and prepare a cover page

### 3.2 Writing style

In writing professional work, the aim should be to write clearly and intelligently about relevant subject-related aspects and issues through an appropriate and engaging professional tone and style. This implies you need to demonstrate your ability to apply the principles of the academic writing style. Table 2 illustrates the differences between different writing styles, their principles and examples.

**Table 2: Principles and examples of different writing styles**

<table>
<thead>
<tr>
<th>#</th>
<th>Style</th>
<th>Principles</th>
<th>Examples</th>
</tr>
</thead>
</table>
| 1. | Colloquial (informal) | Slang, Mix languages, Colloquial language | _Nice weather, boet!_  
_Lekker hot, hey?_  
_Scheme it’s time for a braai?_  
_Beaut weather, mate!_ |
<p>| 2. | Posh (pseudo-formal)        | Mix languages, Colloquial language | <em>'I say, what a splendidiferous day, old chap! Might you fancy partaking in a bit of</em> |</p>
<table>
<thead>
<tr>
<th>#</th>
<th>Style</th>
<th>Principles</th>
<th>Examples</th>
</tr>
</thead>
</table>
| 3  | **Business (semi-formal)** | • Clear, concise and plain language  
• No-nonsense approach  
• Contractions allowed | • ‘According to the Met Office the weather will be good.’  
• Met Office says we’ll have good weather.’ |
| 4  | **Academic (formal)**   | • Raised register  
• Objective  
• Passive  
• Noun structure  
• Tentative | • ‘Evidence from the Bureau of Meteorology indicates that a temperature of approximately 28 degrees Celsius is expected. This could result in the development of thunderstorms.’ |

When the learner writes academic work he/she should demonstrate his/her ability to structure the information and discussion in a logical format. An effective structure is dependent on an effective technical outline. The technical outline refers to the following aspects:

- Alignments
- Headings
- Layout
- Margins
- Numbering
- Referencing
- Spacing
- Table/figure/graph headings
- Transitional links to chapters
- Typeface(s)

The guidelines in Tables 3 and 4 will assist you addressing both the academic and technical requirements in your academic work.

**Table 2: General guidelines**

<table>
<thead>
<tr>
<th>#</th>
<th>Guideline</th>
<th>Description and examples</th>
</tr>
</thead>
</table>
| 1  | Write clearly and directly.                         | NOT The paper was awful  
BUT The paper was poorly researched, or The paper was unsubstantiated               |
| 2  | Avoid colloquialisms and slang                      | NOT: ‘I think that all guns should be banned.’  
BUT: ‘There is a case for stricter control on guns’                              |
| 3  | Sequence thoughts and ideas logically.              | Refer to the four (4) stages of the writing process as discussed in Section 2.          |
| 4  | Organise a plan or outline before you write.       | Refer to the four (4) stages of the writing process as discussed in Section 2.          |
| 5  | Avoid too much “subject-specific jargon”.           | NOT: ‘I think that all guns should be banned.’  
BUT: ‘There is a case for stricter control on guns’                              |
| 6  | Using the third person                             | The analysis **did not yield** any new results  
The analysis yielded **no new** results                                        |
<p>| 7  | Avoid the double negative form                     |                                                                                           |</p>
<table>
<thead>
<tr>

<th>Guidelines</th>
</tr>
</thead>
</table>
| Chapter heading |                           | • 16 pt bold caps  
                   |                           | • centered |
| 1.1       | Heading                  | • 12 pt bold all caps  
                   |                           | • flush left  
                   |                           | • line spacing single |
| 1.1.1     | Sub-heading              | • 11 pt bold sentence case  
                   |                           | • flush left  
                   |                           | • line spacing single |
| 1.1.1.1   | (Sub) sub-heading        | • 11 pt bold italics  
                   |                           | • flush left  
                   |                           | • line spacing single |

Finally Table 5 outlines guidelines when using tables as part of the text in an assignment.

### Table 5: Technical guidelines when using tables in an assignment

<table>
<thead>
<tr>
<th>Items of the table</th>
<th>Guidelines</th>
</tr>
</thead>
</table>
| Body text indent   | • Verdana/Calibri  
                   | • table heading 10 pt bold  
                   | • body: 8/9 pt; left aligned  
                   | • line spacing single  
                   | • # before 3 pt; # after 6 pt  
                   | • widow/orphan control |
| List bullet 2      | • Verdana/Calibri  
                   | • heading 8-10 pt; left aligned  
                   | • left margin 7 pt  
                   | • hanging 10 pt |
The facilitators and assessors do not want imitation scholarship. They would like to read clear, concise, factual and persuasive arguments. Finally, remember to surrender your assignment to a work colleague, friend or supervisor before submission. This will eliminate grammatical and spelling errors as well as test the logical progression and understanding of your assignment.

### 3.3 A hit-list of common errors

Taylor & Proctor (2012:1) have developed a “Hit parade of errors in grammar, punctuation, and style”. This list consists of 13 common errors that learners make in their professional writing work. The 13 common errors are listed below:

a. Lack of agreement  
b. Sentence fragments  
c. Overly-long sentences  
d. Overuse of passive voice  
e. Faulty parallelism  
f. Vague pronouns  
g. Dangling modifiers  
h. Squinting modifiers  
i. Mixed or dead metaphors  
j. Faulty word choice / faulty diction  
k. Wordiness  
l. Comma splices  
m. Misuse of comma, semicolon, colon

These errors are explained in detail in Annexure C.
We have also attached a number of guidelines and suggestions that should help you to correct and/or avoid some of the abovementioned common errors. The following guidelines and suggestions are attached as Annexures D, E and F respectively:

- Spelling – British and America;
- Wordy and old fashioned phrases; and
- Punctuation.

We suggest you work through the list of common errors and identify the errors you tend to make when planning and writing professional work. Thereafter you can work through the guidelines and suggestions that are attached as Annexures D, E and F in an attempt to plan and write professional text.

3.4 Concluding remarks

In the discussion we have explored the elements of the professional writing process, namely the writing process, the research process, acknowledging sources and structuring the response. We have also listed some general guidelines that should assist you in your professional writing process.

## Annexure A: List of action verbs

<table>
<thead>
<tr>
<th>Action</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Analyse</strong></td>
<td>In order to analyse a phenomenon, it must first be thoroughly studied. Then distinguishing elements are highlighted, causes and effects are identified, and the underlying relationships are pointed out.</td>
</tr>
<tr>
<td><strong>Compare</strong></td>
<td>A comparison basically involves two or more phenomena, methods of techniques being weighed against each other with regard to dimensions such as exceptional characteristics, advantages and disadvantages, similarities and differences as well as the relative strong and weak points of each. Normally a reasoned conclusion is reached on the basis of the comparison.</td>
</tr>
<tr>
<td><strong>Define</strong></td>
<td>This requires a short and concise description of the meaning of a specific word, concept or idea. Where possible, elements are specified and explained by means of examples. Where necessary, similarities and contrasts between the word, concept or idea and other related words, concepts or ideas are spelt out.</td>
</tr>
<tr>
<td><strong>Describe</strong></td>
<td>This requires a detailed account of the material without interpretation. In other words, this involves, firstly, a description of which characteristics are present and how characteristic these are, and secondly, an indication of the ways in which the phenomenon -is similar to, or differs from, other phenomena. In some cases, the verb &quot;describe&quot; refers to the description of a process. In such cases, you are required to set out the sequence of actions, activities or events leading to a specific outcome. Sketches and diagrams may be used fruitfully to illustrate the process.</td>
</tr>
<tr>
<td><strong>Discuss</strong></td>
<td>Unlike in the case of &quot;describe&quot; in order to &quot;discuss&quot;, you are required to give a detailed view of the phenomenon, matter or event on the basis of arguments about cause-effect relationships, advantages and disadvantages, as well as reasons why these specific relationships exist or why a specific result ensues. Discussion requires insight into the matter discussed and the ability to argue a case. Please note that you may be asked to discuss only a specified aspect, for example the disadvantages of a method or the most important causes of a problem.</td>
</tr>
<tr>
<td><strong>Differentiate</strong></td>
<td>When you are required to differentiate/distinguish between anything, the crux is differences - i.e. distinguishing characteristics. Two or more phenomena, events or processes are analysed and described in such a way that differences or distinctions are clearly identified.</td>
</tr>
<tr>
<td><strong>Evaluate</strong></td>
<td>Essentially, evaluation refers to the application of criteria against which to measure the technique, method or approach. A deduction or conclusion usually follow evaluation. In such a case, you are required, firstly, to indicate which criteria are applied in the evaluation, and, secondly, to set out your conclusion.</td>
</tr>
<tr>
<td>Term</td>
<td>Description</td>
</tr>
<tr>
<td>-----------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Explain</td>
<td>This term is closely related to &quot;discuss&quot;. Essentially the difference lies in the fact that you must explain, i.e. express the logical relationship between events, activities or actions in such a way that your audience or reader can deduce how and why a process follows a given path. In addition, the audience/reader must be able to recognise that you (as the person giving the explanation, have a good grasp of the matter). In order to explain, you must give a considerable amount of detail. You must explain how things are connected, why they are connected in precisely that way and no other, and why a certain result is achieved. Explanation therefore requires both knowledge and insight.</td>
</tr>
<tr>
<td>Indicate</td>
<td>Although this term may sometimes be used more specifically, here the term is used as synonymous to explain.</td>
</tr>
<tr>
<td>Name, list and tabulate</td>
<td>Here you are required to do no more than merely provide a list of names, dates, reasons, facts, advantages, characteristics, etc. You are not required to provide arguments or to explain processes. Tabulation usually refers to the organisation of information so as to provide a clear and systematic overview.</td>
</tr>
<tr>
<td>Prove/Support</td>
<td>In order to prove or support an argument, facts, knowledge and insight are required. This involves the logical ordering of information, facts and arguments to substantiate/motivate a specific conclusion. In this regard, extensive use may be made of statistics, research findings, and historical facts as well as of inductive and deductive reasoning.</td>
</tr>
<tr>
<td>Set out</td>
<td>Setting out is closely related to discussion. However, the focus is, to a much larger extent, on the organisation of material. In order to &quot;set out&quot;, you must first sort and arrange facts, arguments, characteristics, etc., according to specific points of departure in a new, often original, way. Thereafter the material is discussed, and, where necessary, explained.</td>
</tr>
</tbody>
</table>
Annexure B: Features of professional writing

<table>
<thead>
<tr>
<th>#</th>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Complexity</td>
<td>Written language is relatively more complex than spoken language because it: • Has longer words, it is lexically more dense. • Has a more varied vocabulary. • Uses more noun-based phrases than verb-based phrases. • Is shorter and the language has more grammatical complexity (e.g. more subordinate clauses and more passives).</td>
</tr>
<tr>
<td>2</td>
<td>Formality</td>
<td>Professional writing is relatively formal. In general this means that in an assignment you should avoid colloquial words and expressions.</td>
</tr>
<tr>
<td>3</td>
<td>Precision</td>
<td>In professional writing, facts and figures are given precisely.</td>
</tr>
<tr>
<td>4</td>
<td>Objectivity</td>
<td>Written language is in general objective rather than personal. It therefore has fewer words that refer to the writer or the reader. This means that the main emphasis should be on the information that you want to give and the arguments you want to make, rather than you. For that reason, professional writing tends to use nouns (and adjectives), rather than verbs (and adverbs).</td>
</tr>
<tr>
<td>5</td>
<td>Explicitness</td>
<td>Professional writing is explicit about the relationships in the text. Furthermore, it is the responsibility of the learner/writer to make it clear to the reader how the various parts of the text are related. These connections can be made explicit by the use of different signalling words.</td>
</tr>
<tr>
<td>6</td>
<td>Accuracy</td>
<td>Professional writing uses vocabulary accurately. Most subjects have words with narrow, specific meanings. Ensure that you understand these words and concepts and use them correctly.</td>
</tr>
<tr>
<td>7</td>
<td>Hedging</td>
<td>In any kind of professional writing, it is necessary to make decisions about your stance on a particular subject or the strength of the claims you are making. The learner/author should indicate his/her viewpoint and substantiate it with relevant facts, arguments and examples.</td>
</tr>
<tr>
<td>8</td>
<td>Responsibility</td>
<td>In professional writing you must be responsible for and must be able to provide evidence and justification for, any claims you make. You are also responsible for demonstrating an understanding of any source texts you use.</td>
</tr>
</tbody>
</table>

# Annexure C: Hit parade of common errors

<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Faulty agreement** | **A.** Subjects and verbs must agree in number.  
- X Recent discoveries about the weather reveals that several cycles are involved.  
- √ Recent discoveries about the weather reveal that several cycles are involved.  
- X The media were biased in its reporting of the event.  
- √ The media were biased in their reporting of the event.  

**B.** Nouns and pronouns must agree in number.  
- X A student is free to express their opinion.  
- √ A student is free to express his or her opinion.  
- √ Students are free to express their opinions.  

**C.** Pronouns must agree with each other.  
- X Once one has decided to take the course, you must keep certain policies in mind.  
- √ Once you have decided to take the course, you must keep certain policies in mind. |
| **Sentence fragments** | **A.** Sentence consists of an independent unit with at least a subject and a verb.  
- X All of these rules and regulations should be made aware of.  
- √ Athletes should be made aware of all these rules and regulations.  
- X The liquid was poured into a glass beaker. Being a strong acid.  
- √ Because it was a strong acid, the liquid was poured into a glass beaker. |
| **Overly long sentences (see also #12, comma splices)** | **A.** Sentence should express only one idea or a clearly connected set of ideas.  
- X Home care has been expanding tremendously over the past few years partly due to recent technological advances that enable assessments and treatments to be a part of the home setting which at one time could only be performed within the hospital environment.  
- √ Home care has expanded tremendously over the past few years. This increase is partly due to recent technological advances that now make more assessments and treatments possible in the home rather than only in the hospital. |
| **Overuse of passive voice** | **A.** Prefer active verbs to passive verbs, and prefer persons over abstract ideas for the subjects of these verbs.  
- X It is through this essay that the proposed benefits of active exercise for Chronic Lower Back Pain (CLBP) will be examined.  
- √ This essay will examine the proposed benefits of active exercise for Chronic Lower Back Pain (CLBP). |
| **Faulty parallelism** | **A.** Building parallel elements into a sentence adds clarity and emphasis.  
- X Eating huge meals, snacking between meals and too little
<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Vague pronouns** | A. Make sure that pronouns such as it and this refer to something specific.  
X In the report it suggests that moderate exercise is better than no exercise at all.  
√ The report suggests that moderate exercise is better than no exercise at all.  
X The group wanted to meet in January, but this didn’t happen until May.  
√ The group wanted to meet in January, but the conference didn’t take place until May. |
| **Dangling modifiers** | A. Make sure that a modifying phrase or clause has something to modify.  
X By manipulating the lower back, the pain was greatly eased. (-implies the pain was doing the manipulating)  
√ By manipulating the lower back, the therapist greatly eased the pain.  
X When not going to school, my hobbies range from athletics to automobiles. (-implies the hobbies go to school)  
√ When I am not going to school, my hobbies range from athletics to automobiles. |
| **Squinting modifiers** | A. Make sure the modifier clearly refers to the element you want it to modify.  
X The council advises physicians at regular intervals to administer the drug.  
√ The council advises physicians to administer the drug at regular intervals.  
√ At regular intervals, the council advises physicians to administer the drug. |
| **Mixed or dead metaphors** | A. Recognise the literal meanings of your metaphors; avoid clichés.  
X Like a bolt from the blue the idea grabbed him, and it soon took its place as one of his hobby-horses.  
√ The idea excited him as soon as he heard of it, and it soon became an obsession. |
| **Faulty word choice / faulty diction** | A. Do not use “fancy” words for their own sake; use a dictionary to check words whose meaning you are not sure of.  
X Explaining the rationale for treatment can help distil patients’ fears.  
√ Explaining the rationale for treatment can help dispel patients’ fears. |
<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Wordiness** | **A. Do not spin empty words; use the minimum number of words.**  
X It is evident that this term is associated with much ambiguity.  
Many concepts and ideas come to mind upon first hearing this phrase; however, a true grasp of its meaning is quite difficult to establish. Despite this ambiguity . . .  
[not worth saying -- omit]  
X A definition that can be employed usefully, according to LaPlante et al. (2011:34), states that “assistive technology...”  
√ LaPlant et al. (2011:56) state that “assistive technology...” |
| **Comma splices** | **A. Use a period or semicolon to separate two independent clauses, or join them with a coordinating conjunction.**  
X We started to unpack our things, pretty soon clothes were strewn all over the place.  
√ We started to unpack our things; pretty soon clothes were strewn all over the place.  
√ We started to unpack our things, and pretty soon clothes were strewn all over the place.  

**B. Use a semicolon as well as a conjunctive adverb to join two independent clauses.**  
X Much of the literature advocates stretching preparatory to exercise, however, the mechanisms are not well understood.  
√ Much of the literature advocates stretching preparatory to exercise; however, the mechanisms are not well understood.  

These are the most common **conjunctive adverbs:**  
- however  
- therefore  
- nevertheless  
- accordingly  
- as a result  
- moreover  
- even so  
- rather  
- indeed  
- for example |
| **Misuse of comma, semicolon, and colon** | **A. Use a comma after each item in a series of three or more.**  
X Many studies indicate favourable results in function, decreased pain and range of motion.  
√ Many studies indicate favourable results in function, decreased pain, and range of motion.  

**B. Use a comma when you join independent clauses with one of the seven coordinating conjunctions (and, or, nor, but, so, yet, for).**  
X Power corrupts and absolute power corrupts absolutely.  
√ Power corrupts, and absolute power corrupts absolutely.  

**C. Use a semicolon when you join independent clauses without a coordinating conjunction.**  
X Power corrupts, absolute power corrupts absolutely.  
√ Power corrupts; absolute power corrupts absolutely. |
<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
</tr>
</thead>
</table>
| **D. Do not use a comma to separate subject and verb.**  
  X His enthusiasm for the subject and his desire to be of help, led him to volunteer.  
  √ His enthusiasm for the subject and his desire to be of help led him to volunteer. |
| **E. Use a colon to introduce a list or a long or formal quotation after a complete sentence. Otherwise make the quotation part of the grammar of your sentence.**  
  X Strunk (2009:87) asserts that: “Too many programmes are already underfinanced”  
  √ Strunk (2009:87) asserts: “Too many programmes are already underfinanced”.  
  √ Strunk’s assertion (2009:87) that “Too many programmes are already underfinanced” is based on questionable assumptions. |
Annexure D: Spelling-British and American

**SPELLING British vs America**
Some common words which are spelt differently in British English and American English (American English spellings are shown inside brackets):

- **-our (-or)**: behaviour (behavior); colour (color); favourite (favorite); harbour (harbor); honour (honor); humour (humor); labour (labor); neighbour (neighbor); rumour (rumor)
- **-re (-er)**: centimetre (centimeter); centre (center); fibre (fiber); litre (liter); theatre (theater)
- **-se (-ze)**: analyse (analyze); apologise (apologise); organise (organize); realise (realize); recognise (recognize)
- **-ce (-se)**: defence (defense); a licence (a license); an offence (an offense)
- **-se (-ce)**: to practise (to practice)
- **-en (-in)**: enquiry (inquiry)
- **-l (-ll)**: enrolment (enrollment); fulfil (fulfill); instalment (installment); skilful (skillful)
- **-ll (-l)**: jewellery (jewelry); quarrelling (quarreling); traveller (traveler); woollen (woolen)
- **-oe (e)**: diarrhoea (diarrhea); foetus (fetus); manoeuvre (maneuver)
- **-ae (e)**: anaesthetic (anesthetic); encyclopaedia (encyclopaedia)

**various**
axe (ax); bank cheque (bank check); cosy (cozy); draught (draft); grey (gray); jewellery (jewelry); judgement (judgment); kerb (curb); kidnapper (kidnaper); mould (mold); moustache (mustache); nought (naught); plough (plow); programme (program); pyjamas (pajamas); storey (story); sulphur (sulfur); traveller (traveler); tyre (tire); woollen (woolen).

Note that American spellings are often used in the UK for computer terms, but not when used for other meanings.

You run a computer **program**, but watch a television **programme**.

A computer stores data on its hard **disk**, but the person who plays music on the radio is called a **disc**-jockey.

               | • I am AT my happiest when I am working in the garden.  
               | • Peter was AT church on Sunday.  
               | • The flowers sell AT thirty cents each.  
               | • The stars shine AT night.  
               | • She is good AT figures.  
               | • They booked accommodation AT a hotel.  
               | • They were AT breakfast when I arrived.  |
• He did not aim the gun AT me.
• Eric is an expert AT cutting diamonds.
• I shall meet you AT the corner.
• They stared AT her for a long time.
• She could not see the car AT that distance.
• She did it AGAINST her will.
• Father smiled AT me.
• The dog follows me AT my heels.
• AT that time he was in hospital.
• The two countries were AT war.
• She left her luggage AT the station.
• You must not shout AT him.
• The snake struck AT him.
• She was very sad AT leaving her dog behind.
• When did he arrive AT his destination (a place, conclusion, definite time)?
• My quarrel with Peter is AT an end.
• Three man was sitting AT table when I arrived.
• The dog barks AT strangers.
• Help was near AT hand.
• The bull ran AT the man.

Before
• Jane was there BEFORE seven.
• It happened BEFORE Christmas.
• She was brought BEFORE the judge.
• Her name comes BEFORE mine.
• John and James were sitting BEFORE the fire.

Behind
• He is hiding BEHIND the tree.
• She is BEHIND the times (old-fashioned).
• You must not do something BEHIND his back.
• Look BEHIND you.
• There is some mystery BEHIND this.

Between
• Divide those apples BETWEEN John and Sam.
• It is a matter BETWEEN the two of us.
• It is difficult to decide, because we are BETWEEN two fires.

Beyond
• The shop is BEYOND the bridge.
• It is a matter BETWEEN the two of us.
• It is difficult to decide, because we are BETWEEN two fires.
• It is BEYOND a joke.

By
• They travelled BY car (bus, train, sea, air, etc.).
• I met him BY chance.
• The orchestra played the item BY request.
• The letter arrived BY airmail.
• The gangster died BY violence.
• The two towns are connected BY a railway.
• She was hit BY a pellet.
• People learn BY experience.
• John took the wrong train BY accident (BY mistake).
• They beat our team BY three points.
• She made the doll BY herself.
• You can enter the door BY either door.
• He caught the buck BY the horns.
• The fabric must be washed BY hand.
• I know him BY name only.
• What does she mean BY that?
• You must stick BY your friends.
• She hired a car BY the day.
• We were tired out BY the evening.
• BY the nearest road.
• You must stick BY your friends.
• The machine works BY electricity.
• He was attacked BY a tiger.
• The carpet was made BY hand.
• Some animals hunt BY night.
• The cattle were sold BY auction.
• Abide BY the decision.
• She goes BY that shop every day.
• He hired a car BY the day.
• We were tired out BY the evening.
• Go BY the nearest road.

During
• DURING the holidays we worked in the garden.

For
• The house is FOR sale.
