

## List of Language editors

The list of language editors was compiled from names received by the Research office. The Research office does not recommend any editor in particular and these editors are not in any way affiliated with Da Vinci.

If you use any of these editors or any other editor the editor is expected to provide you a *Letter of confirmation of proofreading* your document. This is to safeguard you against bogus editors. This letter should be included in your final submission.

The Research office does not communicate with the editors or proof readers on your behalf. Any questions should be sent by you to the Research office via your Key Account Manager.
