1. Introduction

The Da Vinci Institute is an accredited private higher distance education provider offering qualifications on NQF levels five to ten, which are registered on the Higher Education Qualifications Sub-Framework (HEQSF). This policy forms part of the institutional Integrated Quality Management System and details the principles for ensuring that programme offerings adhere to academic standards and empower students to contribute to the transformation of their communities, society and the economy of the future. This approach is underpinned by the Business- and Community-based Action Learning discourse on the co-creation and distribution of relevant knowledge.

The following sections of the *Higher Education Act* provide for Student representation in The Institute's governance structures:

- Section 28, subsection 2(f)
"The senate of a public higher education institution must consist of...(f) members of the students' representative council"
- Section 31, subsection 2(f)
"The institutional forum of a public higher education institution must consist of a representative or representatives of...(f) the students"

In light of the above, The Institute's Senate has approved Student Representation on the following Da Vinci Governance structures:

- I. Senate
- II. Research and Ethics Committee
- III. Assessment Committee
- IV. Institutional Forum
- V. Disciplinary Committee (ad hoc)

The Institute regards the various portfolios within the SRC as key student leadership positions. An SRC member forms a pivotal link between the student body and The Institute's Management and relevant stakeholders.
