JOIN OUR GALAXY OF REMARKABILITY

BUSINESS SCHOOL
co-creating realities

Calling all those who wish to formalise their experience with an accredited qualification towards professional development. This qualification can give you access into a Bachelor's Degree.

ABOUT DAVINCI BUSINESS SCHOOL

The DaVinci Institute for Technology Management(PTY) Ltd (DaVinci Business School) offers online distance education with a unique focus on the Management of Technology, Management of Innovation, Management of People and Systems Thinking in all its offerings. At DaVinci Business School you will have a bespoke learning experience and can study anywhere and any time.

Whether you want to upskill, reskill, obtain a promotion or pursue your passion, DaVinci Business School has a qualification tailor-made for you.

DaVinci Business School prepares managerial leaders for the 5th Industrial Revolution and ensures business enhancement in any work context, by probing real business-based problems through business-driven action learning and using a unique business enhancement framework called TIPS™ (Management of Technology, Innovation and People using Systems Thinking). The TIPS™ Managerial Leadership Framework has been applied by hundreds of successful emerging, small, medium and large enterprises, through their participation in the tt100 business innovation awards, which DaVinci has

DaVinci graduates are agile, aligned and engaged managerial leaders equipped to co-create sustainable societies.

What is your superpower?

been involved with for many years.

Imagine what it can do to enhance your business and career?

DaVinci Business School was founded on the principles of Mode 2 knowledge production and while the approach has evolved beyond its original conception, we continue to espouse the spirit of Mode 2 ushered in the 4th industrial revolution, and by establishing an innovation value-chain with an ever growing number of stakeholders. This ensures a focus on the creation of knowledge that is transdisciplinary in nature, socially relevant, actively promotes diversity and heterogeneity.

The intention is to apply situated learning, problem-probing and decision-making to solve work-based challenges, and contribute to the professional development of our students and their teams they lead.

The Da Vinci Institute for Technology Management (Pty) Ltd. Registered with the Department of Higher Education and Training as a private higher education institution under the Higher Education Act, 1997. Registration No. 2004/HE07/003. This qualification is accredited by the Council on Higher Education and registered on the National Qualification Framework (NQF) by the South African Qualification Authority (SQA).

- Actively promoting diversity and heterogeneity
- Advocating and managing quality in meaningful ways
- Acknowledging the world as a set of interconnected systems
- Awakening the senses
- Embracing holism and living harmoniously
- Appreciating the shadow
- Mastering balance with integrity
- Having a distinctive voice.

OVERVIEW OF THE HIGHER CERTIFICATE IN MANAGEMENT OF TECHNOLOGY AND INNOVATION

The Higher Certificate is designed to enable members of an organisation, whose career paths may not necessarily have included gaining formal qualifications, to realise their true potential by developing them to understand their role in an organisational environment and preparing them to perform their job more effectively within a contemporary organisational context. It also affords students the opportunity to add a new skill set to their repertoire. **This qualification also serves as a foundational programme for those wanting to gain access into a Bachelor's Degree.**

The qualification provides personal development opportunities for students whilst they meet their job requirements. It emphasises the integration of systems, technology, innovation and people development concepts into each person's individual performance within an organisation. The curriculum is coupled with the choice of electives that hone students' skills in a particular area.

“With the opportunity I got to be part of DaVinci, I had new and exciting experiences that taught me a lot. In addition, the distance learning offering really improved my computer literacy skills. The modules I did, gave me a better insight about business management in general. I am happy to say that I have seen a shift or improvement in my problem-solving skills, and my understanding on the management of people is the sort of knowledge I'll forever cherish – thanks to DaVinci.”

Sihle Mbabane

Higher Certificate Student DaVinci Business School

The purpose of this qualification is to equip students to contribute towards the debate on socio-economic transformation and management development in South Africa. This purpose seeks to transform individuals, organisations and the community at large, dealing with management development challenges, such as the management of technology, entrepreneurship, project management, the management of innovation, the management of people and systems thinking from a management development perspective.

The Da Vinci Institute for Technology Management (Pty) Ltd. Registered with the Department of Higher Education and Training as a private higher education institution under the Higher Education Act, 1997. Registration No. 2004/HE07/003. This qualification is accredited by the Council on Higher Education and registered on the National Qualification Framework (NQF) by the South African Qualification Authority (SQA).
